YOSUF MOBARK

Product Manager | Business Analyst | ERP specialist

yousifmobark@gmail.com 0534613790 wadi tarj, riydah, Riyadha, saudia arabia

PROFILE

Structured and detail-driven Product Manager with over 10 years of experience in the full lifecycle development of ERP and internal talent systems. Expert in translating complex business needs into clear product requirements and technical specifications. Proven track record of leading cross-functional teams to deliver integrated HRIS and recruitment workflows, ensuring compliance with Saudi regulations including ZATCA, and Eltizam.

PROFESSIONAL EXPERIENCE

National E-learning Center 03/2025 – now

- **Product Vision & Roadmap:** Own the end-to-end implementation of Odoo ERP 17, focusing on HR, Procurement, and Budget Management modules to streamline organizational operations.
- **Workflow Engineering:** Designed a comprehensive HR solution covering the full employee lifecycle, including payroll, attendance, and recruitment, aligned with Saudi labor laws and GOSI requirements.
- **Systems Integration:** Led critical integrations with **Eltizam (Government SOAP API)** for real-time HR data synchronization and **ZATCA** for financial compliance.
- **Requirements & Specs:** Translated departmental needs into automated budget transfer mechanisms and multi-level approval workflows.
- **Stakeholder Management:** Conducted business process reengineering and trained 200+ users to ensure high product adoption and operational efficiency.

Technical Team Lead 02/2024 – 03/2025

SMART Shopping, KSA

- **Product Scaling:** Scaled retail management systems from single-store to multi-location architecture, enabling centralized inventory and sales tracking across 6 branches.
- **Feature Development:** Led the delivery of real-time inventory tracking, customer analytics dashboards, and omnichannel sales integration.
- **Performance Optimization:** Enhanced system performance to achieve 4x faster page load times for critical retail operations, directly improving staff productivity.

Odoo Product & Project Manager 11/2020 – 02/2024

SMT Technology, KSA

- **End-to-End Delivery:** Managed complex ERP projects across multiple industries, handling risk analysis, budgeting, and timeline scheduling.+2
- **Architecture & Infrastructure:** Architected CI/CD pipelines and backup strategies to ensure product reliability and business continuity.+2
- **Custom Solutions:** Identified and resolved business challenges by designing custom reports, API integrations, and UI optimizations.

Business Analyst 12/2018 – 06/2020

IATL International, Sudan

- **Requirement Analysis:** Gathered and transformed business requirements into actionable technical specifications and implementation roadmaps.+2
- **Validation & Testing:** Led User Acceptance Testing (UAT) and quality validation to ensure deliverables met business needs.+2
- **Process Improvement:** Utilized data analytics to identify operational trends and recommend solutions to enhance efficiency

odoo techno-functional specialist 08/2017 – 12/2018

IntelliSoft, Sudan

- **Module Development:** Developed custom Odoo modules for inventory, accounting, and business-specific workflows using Python and XML.+1
- **API Integration:** Integrated ERP systems with external software and databases using APIs and middleware for seamless data flow.+1

- **Access Control:** Configured security architecture and robust permission structures based on departmental roles.

OpenErp developer -odoo 05/2016 – 08/2017
MBR, Sudan
- **Feature Implementation:** Coded complex data models and automated business processes for accounting, sales, and HR functions.
- **Technical Documentation:** Maintained comprehensive API specifications and deployment procedures for all modules.

Software Engineer 10/2015 – 05/2016
University of Science and Technology
- **Product Development:** Designed and developed software solutions for academic databases and departmental systems, focusing on user-friendly web applications to support university operations and academic workflows.
- **Technical Execution:** Built and maintained applications using the **Visual Basic .NET Framework** and **Visual Studio**, applying object-oriented programming principles and adhering to **SDLC** best practices.
- **Cross-Functional Collaboration:** Partnered with software engineers and academic staff to deliver secure, easy-to-use platforms that enhanced digital infrastructure and improved the overall user experience.
- **Data Optimization:** Developed and implemented advanced **SQL queries** to manage and optimize database operations, ensuring high-speed data retrieval and system performance.
- **Deployment & Maintenance:** Managed the testing, deployment, and ongoing maintenance of software applications across multiple academic departments.
- **Security & Stability:** Ensured system integrity and stability through regular configuration updates and security hardening.
- **Continuous Improvement:** Researched and implemented emerging technologies to consistently improve application functionality and performance.
- **Documentation:** Created comprehensive technical documentation to streamline user onboarding and explain complex software features and operational procedures.

EDUCATION

Bachelor's degree in Computer Science 2011 – 2015
university of science and technology

KEY SKILLS

Programming & Development
- Python (Advanced - Odoo Framework, ORM)
- SQL & PostgreSQL (Database Design, Query Optimization)
- XML, QWeb Templates
- JavaScript, OWL Framework
- HTML/CSS
- Visual Basic .NET

ERP & Business Systems
- Odoo ERP (v8-19) - Development, Implementation, Customization
- Enterprise Architecture & System Integration
- Multi-instance & Multi-location System Design
- Business Process Automation & Workflow Design

Project Managment
- Product Roadmap
- User Stories
- Agile/Scrum
- Stakeholder Management
- UAT

DevOps & Infrastructure
- Docker & Docker Compose
- CI/CD Pipeline Implementation (Jenkins/GitLab)
- Linux Server Administration
- Reverse Proxy Configuration (Nginx/Apache)
- Backup & Disaster Recovery Planning
- Server Security & Hardening

Development Tools & Platforms
- Git Version Control
- Visual Studio
- Project Management Tools
- API Integration & Development
